

College of Medical Evangelists, Hahnemann Medical College of the Pacific, be approved until July 1st, 1916, as qualifying applicants for a physician's and surgeon's examination. Carried.

Moved by Dr. Molony, seconded by Dr. Vanderburgh, that on the basis of the report of the College Investigation Committee, the Los Angeles College of Osteopathic Physicians & Surgeons, California Eclectic Medical College and the College of Physicians & Surgeons of San Francisco, be temporarily approved until Dec. 1, 1915, as qualifying applicants for physician's and surgeon's examination. Roll call vote:

Ayes: Drs: Tasker, Vanderburgh, Molony, Campbell, Brown, Smith, Pinkham.

Noes: Drs: Alderson, Loos.

Carried.

Moved by Dr. Tasker, seconded by Dr. Vanderburgh, that the California College of Chiropractic be recognized for one thousand hours as a ~~drugless~~ school on the basis of the Committee report, provided the recommendations of the Committee were adopted by the institution. Carried.

Calendar No. 18:

REPORT OF THE COLLEGE INVESTIGATION COMMITTEE:

REPORT OF THE COLLEGE INVESTIGATING COMMITTEE

The College Investigating Committee appointed by the April, 1915, meeting of the Board beg to report that it has made a thorough investigation, both individually and collectively, of the institutions of which we had knowledge, now engaged in teaching any method of treating the sick or afflicted in the State of California, particularly those schools or corporations conferring a degree after the pursuit of a prescribed course of instruction.

Prior to undertaking this laborious task, your committee compiled an outline of the scope of the investigation that there might be a comparative basis of determination of the efficiency of the California schools teaching the healing art. A copy thereof was forwarded to the following institutions with a request that as complete data as possible be furnished.

Practically all of the institutions listed returned a reply, the reports varying from a mere statement a few lines in length to a most elaborate, comprehensive and detailed outline as submitted by the College of Physicians and Surgeons of the University of Southern California, Los Angeles, Cal. Your Committee presents the report of this institution, as a model typifying a minutia of detail essential in establishing facts in the matter of approval of schools.

UNIVERSITY OF CAL. MEDICAL SCHOOL

First opened in Toland Hall, erected 1862, and was transferred to the Regents of the University in 1872.

Four year course started in 1895.

Became an integral part of the University of Cal. in 1902 and supported from the general University fund.

April 9, 1912, consolidation of all departments of school in San Francisco was resolved.

The Geo. Williams Hooper foundation provides \$50,000 per annum for medical research.

Microscopes.

Library-Berkeley and in S.F.

Laboratories - 1st two years in U. of C., Berkeley.

Present University hospital 112 beds. New building capacity 210, costing \$625,000, now in construction.

San Francisco Hospital offers 100 beds.

Out patient clinics average 140 patients per day.

Tuberculosis clinics.

Cancer ward supported by a benefactor.

Internships - 8 in Univ. Hospital; 3 in S.F. Hospital.

Classes graduated, 52.

Alumni (Living, 683

(Decsd., 103

786

Enrollment, 1914-1915 is 105 students.

Detailed report not submitted by the school.

STANFORD MEDICAL SCHOOL

Located at Palo Alto and San Francisco.

Formed through a merger or absorption by Stanford University of Cooper Medical College, which was founded in 1858, and then known as the Medical Department of the University of the Pacific.

Clinical instruction in the City and County Hospital was undertaken in 1870.

In 1882 Cooper Medical College was formed and the present college building at Sacramento and Webster Sts. constructed.

In 1879 a three year course was operative and in 1896 a four year course was established with a high school graduation or its equivalent as a preliminary education requirement.

Absorbed by Stanford University in 1908.

Ample laboratory equipment in all departments with facilities for research work.

Property valuation \$250,000; buildings exceed \$1,000,000.00.

Equipment \$25,000; University Endowment \$20,000,000.00.

No profits, no surplus, and no deficit.

Library of 40,000 volumes - one of the finest in the West, with 460 current journals.

Alumni of Stanford Medical School, 19

Total enrollment, 88

Full time teachers, 23; part time, 2.

Hospital facilities, Lane, 125 beds for teaching; San Francisco Hospital 100 beds.

Out patient-clinics furnish about 90,000 cases annually.

Complete, modern with several thousand specimens.

Alumni of Cooper Medical College

" " Stanford " " 19

Present enrollment of students, 88.

Detailed report from the school submitted herewith.

HAHNEMANN MEDICAL COLLEGE OF THE PACIFIC

S.W. Corner Maple & Sacramento Sts., San Francisco
(Recently affiliated with the University of California).

Incorporated Jan. 12, 1881, as the Hahnemann Medical College of San Francisco, located at 115 Haight St., San Francisco, re-incorporated in 1887 as the Hahnemann Hospital College of San Francisco. Re-incorporated in 1902 as the Hahnemann Medical College of the Pacific.

Real estate and improvements valued at \$30,000.

Equipment valued at \$3,000; Income \$6348.25.

Expenses, \$5124.00

Three part time paid teachers in chemistry, pathology and bacteriology.

Completely equipped laboratories.

Bedside instruction provided as follows: S.F. Hospital, 75; Hahnemann Hospital, 25; Maria Kip Orphanage 25.

Out patients treated 1914-1915, 1380.

Library consists of 3400 volumes readily accessible.

Internships - One at Hahnemann Hospital; two at S.F. Hospital.

Classes graduated, 31

Alumna, 249

Present enrollment of students, 44.

Detailed report from the college submitted herewith.

COLLEGE OF MEDICAL EVANGELISTS

Loma Linda, Cal.

Incorporated, 1909, #59372. In 1910, #61702, the sanitarium and College of Medical Evangelists came under the same corporation of the College of Medical Evangelists, Loma Linda and Los Angeles.

Dormitory for women students.

Laboratory Building three stories and basement, providing for clinical chemistry for the institution and one chemistry laboratory for class work, one for physiology, one for histology and embryology, one for pathology and bacteriology and a laboratory of physiologic therapy. General equipment complete.

Income \$34,600.00 per annum; expenses \$33,210; full time teachers, 11; part time 5.

Hospital building of 70 beds, Los Angeles Co. Hospital 1200 beds, San Bernardino County Hospital 120 beds and the state institution for Insane at Patton offer clinical instruction.

Dispensary and out patient department in Los Angeles daily average 35.

Library of 2000 volumes published 1909-1914, with 80 current journals for reference from 7 A.M. to 9 P.M. daily.

Classes graduated, 1; alumni, 6; present enrollment of students, 63.

Detailed report from the college submitted herewith.

COLLEGE OF PHYSICIANS AND SURGEONS, MEDICAL

DEPARTMENT UNIVERSITY OF SO. CALIFORNIA.

Located 516 E. Washington St., L.A.

Formed Aug. 11, 1909, by a merger of the College of Physicians and Surgeons of Los Angeles, which was incorporated Dec. 11, 1903, (#39032) and graduated five classes 1905-1909 inclusive and end the University of So. California College of Medicine organized in 1885 and graduating twenty one classes from 1888 to 1909 inclusive.

The College of P. & S., Med. Dept. of the U. of So. Cal. has graduated 5 classes, 1910 to 1915, inclusive.

Owns no real estate. Has a lease on present building, which was built for the college and is valued at \$53,000.00.

Equipment owned by the school estimated at \$25,000.

Supported by university funds. Income 1914-1915, \$25,000.

Operates 2 clinics with daily average of about 85 patients.

COLLEGE OF PHYSICIANS AND SURGEONS, MEDICAL

DEPARTMENT UNIVERSITY OF SO. CALIFORNIA.

Located 516 E. Washington St., L.A.

Full time teachers, 8; part time teachers arranged later.
Hospital facilities Los Angeles 66; Hospital 1200 beds.
Laboratory equipment complete in all departments.
Library of 2000 volumes in the school; students also have access to the University library of 18,000 volumes, as well as the Barlow library.
Extensive college buildings are being planned.
Combined classes graduated 31. Total alumni, 441.
Present enrollment of students, 132.
Detailed report from the college submitted herewith.

LOS ANGELES COLLEGE OF OSTEOPATHIC PHYSICIANS
AND SURGEONS of LOS ANGELES

Located 321 So. Hill St., Los Angeles.
Incorporated July 17, 1914 (#77528) by merger of:
1st. The Pac. College of Osteopathy incorporated in 1898 at Anaheim, removing in 1898 to 10th & Flower Sts., Los Angeles, and in 1904 to Mission Road and Daly Sts., where the college was conducted until July 17, 1914.

On January 20, 1904, articles of incorporation were filed with the Secretary of State, setting forth the purpose to maintain and conduct a scientific and educational school wherein the principles of Osteopathy shall be taught --- to teach the art of surgery and such other adjuncts of Osteopathy as may prove useful --- to impress upon the students the grave responsibilities and the rare opportunities which rest upon the physician --- to conduct a school of Osteopathic medicine in its broadest sense; to graduate its students and grant them diplomas and degrees --- to perform other things and acts proper to the carrying on of a school or college of osteopathic medicine and instruction.

Seven Directors. Capital Stock, 50,000. Par value \$1.00.
Subscribed \$744.00.

Existed 18 years, graduating classes each year; alumni 260.
This was the second Osteopathic College in the world, the first being established in Kirksville, Mo., 1893.

2nd. The Los Angeles College of Osteopathy was incorporated on the 11th day of October, 1905.

Located on West 9th St., Los Angeles. In the Fall of 1906 this school moved to 318-322 Clay St., Los Angeles. The founders formerly conducted the Dr. S. S. Still College of Osteopathy at Des Moines which was sold in 1905 for merger with the "parent school" at Kirksville, Mo.

The Articles of Incorporation of the Los Angeles College of Osteopathy certify the purpose is to establish --- colleges --- to give tuition in the science and art of Osteopathy and to graduate with proper diplomas and degrees, students completing any of its regular courses.

To give tuition and graduate nurses.
To give tuition in embalming and to properly educate those completing this course.
To conduct hospitals, etc.
Number of Trustees and capital stock, \$25,000 divided into 250 shares per value \$100.00. Amount subscribed \$2500.
Graduated 18 classes. Alumni approximate 500.

LOS ANGELES COLLEGE OF OSTEOPATHIC PHYSICIANS AND SURGEONS

(Formed by the merger of the Los Angeles College of Osteopathy and the Pacific College of Osteopathy).

Incorporated July 17th, 1914. \$77528, as an educational institution, without profit, controlled by Board of Trustees.

To establish, maintain, carry on and conduct an osteopathic medical and surgical college, in which all branches of learning and instruction which now pertain, or which may in the future pertain to the science and art of health maintenance; prevention, relief and recovery from disease, as well as any or all academic subjects desirable or necessary as a foundation for the teaching of such branches to grant such honors and degrees usually granted by any institute or college in the United States, and give suitable diplomas under seal and signature of such officers of the corporation and in the institutions as it shall deem expedient, and also such degrees, honors, or distinctions as may become customary in the future.

While this corporation is purely benevolent and not formed for pecuniary profit, still it may charge and collect such fees, dues and other charges from those who shall participate in its benefactions, or make use of its facilities for learning and research.

With power to maintain hospitals, courses of training for nurses, colleges of optometry and ophthalmology, infirmaries, sanitariums, and any other or special departments of medical profession.

Number of Trustees - nineteen (19) - appointed to serve until election and qualification of their successors.

Incorporators:-

Brigham, W. Curtis

Reply to outline received, copy of which is filed herewith.
College is made up of four buildings used for hospital, clinic, laboratory rooms, offices of the college, private offices of the teachers and nurses home. The college has enrolled 292 students divided as follows:

Senior A 62, Graduating 6/11/16. Senior B 24, Senior C 35.
Junior B, 35. Freshman A 88; Freshman B 131. Post graduates 4.
Supplemental list 87.

Said reply received and submitted without comment for the reason that time opportunity have not been available for the checking up of the report.

This institution had 327 students in attendance Jan. 1, 1915; but as it receives and graduates two classes each year its annual attendance is somewhat larger than this number. It graduated its first class of 44 on Jan. 29, 1915. It will graduate another class of about 66 members, June 17, 1915.

110

Property of Pac. College of Osteopathy \$14,000, Mortgage \$4000.

leased in 1908 for 10 years; also leases 324-26 Clay for hospital
and clinics.

Equipment estimated \$20,000. owned by the college.
Bills Receivable 55,326.
2 full time teachers during past year
6 half " " " " "
17 part " " " " "

Hospital of 35 beds.

L.A. Co. Hospital for limited Surg. experience one morning each week.

Dispensary average 450 patients each month.

Bedside instruction in College Hospital of 35 beds.

Library about 400 volumes, 3 current journals.

Detailed report for the college is submitted herewith.

The recommendations of your committee in the matter of improvements and additions to the teaching facilities, staff and equipment of this college has elicited the following letter which is made a part of this report (d) and the authorities of this institution have subscribed and agreed to additional improvements as noted in the letter marked (E).

(d)

(Letterhead of The College of Osteopathic Physicians and Surgeons, 321 So. Hill St., Los Angeles, Cal.)

"June 8, 1915.

Dr. William R. Moloney,
Chairman of the College Investigating Committee,
State Board of Medical Examiners,
Los Angeles, Cal.

Dear Doctor:-

In reply to your inquiry of May 20th, in which you ask concerning contemplated improvements or changes in the College of Osteopathic Physicians and Surgeons for the coming year, I have to say that the college contemplates a few changes as follows:

First: The college will take exclusive use of the rooms at present used by the Fraternities, for treatment and rest rooms. The Fraternities will be required to obtain quarters elsewhere.

Second: The library will be enlarged and put in quarters better adapted to its use. Suitable library tables will be installed and in addition to increasing the number of text-books there will be added at least five current Medical publications which will be kept on the library tables to be used by the students.

Third: The equipment in the department of Physiology will be increased. It is the plan of the college to install sufficient equipment in this department to enable the students in groups of five to perform all of the classic experiments, after the plan suggested in Stewart's Physiology. This laboratory equipment will be at the service of the class in Pharmacology.

Fourth: The board of Trustees passed a resolution at the last meeting, authorizing the employment of six full time professors who will serve in the departments of Physiology, Anatomy, Histology, Embryology, Chemistry, Pathology, Technique, Laboratory Diagnosis and General Clinics.

Fifth: In the department of Anatomy it is the plan to preserve the skeletons of the cadavers used in dissection until a sufficient number are accumulated to furnish one to each freshman student. A small deposit will be charged to guarantee the return of the material.

Sixth: An improvement will be made in the manner of keeping and filing case records. The plan for this is not definitely worked out as yet. At present records are kept in separate departments.

Seventh: The equipment and supplies necessary for practical work in Pharmacology will be installed.

Yours with respect,
Harry W. Forbes, (Signed)
President.

(E)

"Los Angeles, Cal."

Dr. Wm. R. Molony,
Chairman of the College Investigating Committee of
The State Board of Medical Examiners,
Los Angeles, Cal.

Dear Doctor:

Supplementary to our letter of June 8th setting forth statements of contemplated improvements or changes in the Osteopathic College of Physicians and Surgeons for the coming year, we wish to offer the following: That a general renovation of the College, and changes necessary to put into effect the various improvements contemplated, will be undertaken as rapidly as time and money will permit.

CONTROL

That the control and ownership will be positively vested in the College of Osteopathic Physicians and Surgeons as inc. July 17, 1914, through its Board of Trustees.

ENDOWMENT

That the endowment, as it become available from time to time, will be securely invested in interest bearing securities, and the principal will be left intact.

ADVERTISING

All advertising will be in accord with an educational and scientific spirit, and with the idea of cooperating fully with the Medical Law and the administration thereof.

CREDENTIALS

Before matriculating, any student in any class, we will demand that he present a certificate of the valuation of his credential by the Board or its accredited agents.

FACULTY

That the faculty will be re-arranged, especial attention being given to the placing of men to teach subjects having a direct relation to each other.

CLASSES

That two classes of under-graduates will be started each year. One in the Fall and one in the Spring. That the Summer vacation time will be used only for post-Graduate teaching.

CLINICS

That the amount of bedside, laboratory and outpatient clinical teaching will be increased, so as to utilize the major part of the time of each course. That the College clinics will be re-organized, and a surgical department of minor surgery, of diseases of children, or nervous diseases, of skin and genito-urinary, will be installed. That the Department of eye, ear, nose and throat will be re-arranged to more suitably handle this work. That the clinical laboratory will be moved to a more suitable location, easily accessible to the clinical departments, and properly equipped and supervised. That satisfactory case records will be kept of each case, and properly filed and indexed.

HOSPITAL

That an effort will be made to encourage the use of the hospital to its capacity, for teaching purposes.

OBSTETRICS

That this department will be carefully organized to the end that each student be given an opportunity to conduct at least six cases during his third and fourth year, and that other experience and ~~experience~~ demonstration be accorded.

ANATOMY

The present dissecting room will be adapted exclusively to the laboratory of anatomy, using only six tables. The room will be renovated and put in proper and acceptable condition, and arrangements made to so keep it. That the cadavers be stored and prepared in a separate room. That a satisfactory system of work and quizzing in

this laboratory will be maintained, and material undergoing dissection will be properly cared for. That a museum of Osteology or collection of bones for the use of the students will be started. Said bones being loaned to the students for their use during the study of anatomy.

PHYSIOLOGY

A laboratory will be installed containing all apparatus necessary to the giving and maintaining of a modern laboratory course in Physiology. That animals will be used in this work.

CHEMISTRY

Provisions will be made to increase the facilities for teaching Physiological Chemistry.

and PHARMACOLOGY MATERIA MEDICA

That sufficient equipment to familiarize students with the various drugs, pharmaceutical mixtures, and standard solutions of U.S.P. vasp. will be installed. Students will have practical work in this department.

EMBRYOLOGY

Lectures on this subject will be supplemented by a satisfactory laboratory course.

HISTOLOGY & BACTERIOLOGY

The work in these departments will be systematical. Improved and added facilities will be installed.

PATHOLOGY

That a museum of Pathology will be started containing properly prepared specimens of various definite pathological conditions, labelled and accompanied by sufficient clinical history to be of teaching value. That post-mortem study will be made a part of the regular work.

LIBRARY

That a room of sufficient size, adapted to the purpose, will be set aside for library purposes. Library to be outfitted with a well selected number of text and reference books. This library will be accessible to the students at all times. Also that the current literature, in the shape of journals covering the full scope of the progress of the various departments of medicine and allied subjects will be maintained.

MUSEUM

Anything which will be of value and instruction to a student of medicine will be gathered together and placed on exhibition in a room for this purpose. That our students will be not encouraged to take the drugless examination at the end of their second year. That no space in the college building will be given over to the use of any social organization. The rooms now utilized by these societies will be used for teaching purposes.

organization. The rooms now used
for teaching purposes.

of incorporation of the College of Physicians and Surgeons

By

President.

Inserted on Page 380 A.

Faculty: That arrangement be made to secure two or more full time teachers in the laboratory departments, together with two or more full time assistants.

A communication from Dean L. W. Spragg informs our committee that an addition to the building is being constructed and a thoroughly practical equipment for chemistry and physiology will be installed prior to opening of the Fall term in September.

Outline sent and report submitted which is filed herewith.

COLLEGE OF PHYSICIANS AND SURGEONS

SAN FRANCISCO, CAL.

Incorporated 1896. #15231. 25558.

Located at 14th between Woodward and Stevenson Sts.

The main college is a one story building, having a second story over a portion of one wing and basement under another. The entire building is devoted to the teaching of students in medicine, dentistry and pharmacy. According to their report, which is herewith submitted, this college is incorporated under the provisions of the Civil Code of the State of California as part 4, title 37 of Educational institutions 1896. Not a stock corporation but an educational institution and is controlled by a Board of 7 trustees.

Classes graduated 18- Alumni (Medical Dept) 348. Present enrollment medical department 63.

Number of students _____, Junior _____, Senior _____

Inspected by Dr. Vanderburgh ^{twice} once, Drs. A. M. Smith and W. R. Melony twice. Inspection demonstrated that the college buildings are not adequately or properly arranged for accomplishing work for which the college is incorporated; that the college clinic department is not well organized, supervised nor conducted, in order that students may receive the full value of the clinical material available; that the records are both inadequate and meager in the extreme, affording no particular value for teaching purposes; that the library is poorly situated, not well arranged nor equipped and not of particular value to the students, no current journals of medicinal progress or development being on file at the college building. Students in dentistry and medicine are together in some of the classes and utilize the same laboratory rooms, which we believe does not promote efficiency in the

instructions of the student of ^{employed.} medicine. No full time professors or assistants are maintained by the college, which depends entirely upon the faculty to conduct to the best of their ability and in conjunction with private practice the curriculum outlined for the year. This committee does not wish at this time to incorporate in their report a detailed report for the inspection of this college. Our committee submits the following items of changes, improvements and additions to the equipment of the college buildings, laboratories, college clinics and teaching staff.

All advertising will be in accord with an educational as well as scientific spirit, with the idea of co-operating fully with the Medical Law and the administration thereof.

Credentials: That in the matter of matriculating any student in medicine, the requirements of the medical practice act as well as the rules and regulations of the Board of Medical Examiners of the State of California be observed. That the faculty be organized with the idea of providing thorough instruction in all departments and full time professors be provided in the laboratory departments. That the college clinic be re-organized, re-arranged and renovated and thereafter kept in an orderly condition. That a system of case records and blanks be installed; such records be properly filled out, indexed and so filed as to be of teaching value to the students. That the students be encouraged to avail themselves of the opportunities for a more thorough study of the abundance of clinical material available. That bed-side teaching in the hospital service afforded the college be diligently utilized for the purpose of affording the best possible instruction to students. That the records of the hospital cases be carefully kept and indexed; that the addition to the present college building as shown on a blue print submitted to this committee by the college which is made a part of this report, be completed and that this additional room be thoroughly equipped for the laboratory work.

That the department of obstetrics be so organized that an out-patient department be established that each student may conduct prior to graduation at least six deliveries in addition to other instruction demonstration.

ANATOMY: That an assortment of bones be provided for the use of student beginning the study of anatomy. That the laboratory of anatomy be conducted along scientific lines, having not only an acceptable arrangement for the conduct of demonstration and quizzes, but also provision for the proper care of material under-going dissection.

Physiology: That a laboratory containing all of the apparatus necessary for the giving and maintaining of modern courses of physiology be installed and animals be used in this work.

Chemistry: That provision be made to increase the facilities and time given for the teaching of physiological chemistry.

Embryology: That lectures on this subject be supplemented by a satisfactory laboratory course.

Histology & Bacteriology: That added facilities for these departments be furnished and the work be systematically improved.

Pathology: That the college start a museum of pathology containing properly prepared specimens of various pathological conditions labelled and accompanied by sufficient clinical history to be of teaching value. That post-mortem study be made a part of the regular curriculum, with the suggestion that the proper department avail itself of the available material at the San Francisco Hospital.

Library: That a room of sufficient area to be adapted for the purpose, be set aside for library purposes. This library to be outfitted with a well selected number of modern text and reference books as well as current medical literature, journals, etc., covering the various departments of medicine and its allied subjects.

Museum: That a room be provided for a museum wherein anything that will be of value and instruction to the student of medicine may be arranged for exhibition.

Social Organizations: That no space in the college building be devoted to the use of any social organization.

Detailed report from the college submitted herewith.

CALIFORNIA ELECTRIC MEDICAL COLLEGE
#15966.

Located at 337½ So. Hill St., Los Angeles.

This institution was chartered by special act of the legislature in 1878 under the name of the California Medical College as an educational institution, not conducted for profit. Chartered in 1887 in San Francisco; moved to Los Angeles 1906 and since 1909 has been located at 337½ So. Hill Street where the second floor of a brick building is occupied as the college.

The control is vested in a Board of Trustees. There are no stockholders nor does the college own any realty. Copy of the report submitted by this institution is herewith submitted.

Inspected by Drs. Smith, Vanderburgh once; Dr. Molony five or six times.

Your committee finds this college lacking in several particulars and recommends that the following improvements be effected by this college:

1st. That before matriculation each student must present a certificate of the evaluation of his credentials by the Board or its accredited agents. Before matriculating students in any class, a certificate of the evaluation of his credentials by the Board or its accredited agents must be filed with the matriculating officer.

2nd. That arrangements be perfected for one or two full time teachers to take charge of the departments in which laboratory teaching forms the major part.

Hospital:

3rd. That arrangements be made to have six or eight beds available in a hospital for bedside teaching.

4th. That blanks for the accurate compilation of satisfactory records for all college clinic, out-patient clinic, obstetrical clinic and hospital clinic cases be adopted and that a system be devised for the proper filing and indexing of the same, that these records may be utilized for teaching purposes.

5th. That the Department of Obstetrics be organized on the basis of an out-patient department so that each student prior to graduation may personally conduct at least six deliveries as well as be afforded an opportunity for observation of an additional number of cases.

6th. That research work be encouraged by the teachers and students.

7th. That the department of Anatomy be further equipped with necessary charts, models, manikins, and bones and dissected wet specimens.

Physiology:

8th. That a modern and satisfactory course in laboratory physiology be installed (using animals for this work).

9th. That necessary apparatus be secured and more time be devoted to physiological chemistry.

10th. That a suitable clinical laboratory be provided, properly supervised and equipped, wherein the students may make examination of blood, urine, sputa, feces, tissue, etc.

College Clinic:

11th. That the clinics be re-organized and a separate department be installed and equipped for medicine and allied subjects; for minor surgery and allied subjects; for the eye, ear, nose and throat, and gynecology.

12th. That the pharmacy be re-arranged so as to be separated from all other rooms.

Pathology:

13th. That a museum of pathology be started, provision being made for the installation of prepared specimens of various definite pathological conditions, properly labelled and accompanied by sufficient clinical history to be of teaching value, That a course in post-mortem study be made a part of the regular work.

Library:

14th. That a room of sufficient size, accessible to students at all times be provided for library ~~xxxx~~ purposes. This library should be supplied with modern text and reference books, also provided

with current journals covering the full scope of medicine and allied subjects.

Inspected by Drs. Molony, Smith and Vanderburgh.
Detailed report from the college is submitted herewith.

June 26, 1912.

THE PACIFIC MEDICAL COLLEGE, a stock company owned in part by Dr. Frank P. Young. Occupies two floors of a building on Hill St. between 3rd and 4th.

First floor contains clinic rooms, library, rest room, chemical laboratory, Histological and Pathological Laboratory, Bacteriological Laboratory, office of the College, Lecture Room and sleeping rooms for the keepers. The second floor has two lecture rooms and the dissecting room.

Clinics: Have two rooms, one for surgery and one for Gynecology. Both ill kept and not suitable for the purpose. Also a pharmacy stocked with a few stock solutions and a few hundred bottles of tablets.

Anatomy: One skeleton, one wall chart, and a dissecting room, which was dirty and repulsive in appearance. Two partially dissected and neglected cadavers were on the tables.

Histology, Pathology & Bacteriology: Taught by lectures and an attempt at laboratory work. Laboratory large enough and well enough arranged but utterly lacking in the necessary facilities for the proper treating of these subjects.

Chemistry: Taught by lectures and laboratory work. Laboratory but poorly and inadequately equipped and no evidence in this or any other laboratory in the college, of any recent work, nor one for Physiology. No facilities for bed side teaching in any hospital. No proper clinical records in college clinic, out-patient clinic or obstetric clinic.

Library contains about a dozen books.

No evidence of any real earnest and scientific educational work.

Your committee recommends that this college be disapproved as an institution qualifying students for an examination for any form of certificate under the provisions of the Medical Act of California.

Inspected by Drs. A. M. Smith, Wm. R. Molony, W. W. Vanderburgh.

MODERN SCHOOL OF CHIROPRACTIC

Located at 642 12th St., Oakland, was organized Nov. 4, 1912, with the faculty consisting of F. S. Lewis, D.H., D.O., and J.T. Mutchmore, M.D., with four matriculants.

STATE SCHOOL OF DENTISTRY

Located at 642 12th St., Oakland, was organized Nov. 4, 1912,
with the faculty consisting of F. S. Lewis, D.H., D.C., and J.T.
Mitchmore, M.D., with four matriculants.

* Originally incorporated Sept. 27, 1911. Charter of Incorporation filed

CALIFORNIA COLLEGE ECLECTIC CHIROPRACTORS

Place of business, 642 12th Street, Oakland, Cal.
Incorporated, October 30, 1913, #74959.

To prepare students for examination as doctors of Drugless Therapy; Eclectic Chiropractors, doctors of Physio-Therapy; to grant diplomas to graduates "Entitling them to practice Drugless Therapy in any part of the State of California, or any part of the United States"; establish branch schools which shall have the right to grant diplomas; accept patients and fees from both patients and students; own realty; copyright pamphlets; Capital stock \$5,000. Par value of \$1.00. Subscribed \$5000. by the following directors:

Lewis, F. S.	642 12th St., Oakland,	\$4497.00
Gardiner, J. A.	230 12th St., "	1.00
Lewis, Laura S.	642 12th St., "	500.00
Flagg, V. Hamilton	3316 Viola St., "	1.00
Williams, Gertrude BH	747 14th St., "	1.00

The thoroughness of the course of instruction is evidenced

from the following excerpt of a letter written in 1914:

"On receipt of \$50.00, I will furnish you the entire course, including books above mentioned, by return mail. On receipt of \$10.00 per installment plan, we furnish the first ten lessons, balance to follow as installments are paid. No extra charge for diploma in either instance. Expecting your enrollment within a few days, I remain,

Sincerely yours,
F.S. Lewis, D.N.D.C."

This college has been personally inspected by Dr. A. M. Smith, who reports that they are not now teaching, having no students ~~and have~~ ^{well} no equipment of any moment for teaching. Report of this college signed by F. S. Lewis, President.

SAN DIEGO SCHOOL OF CHIROPRACTIC

San Diego, Calif.

Incorporated December 27, 1910; #63680.

To teach chiro^{practic} and allied subjects; to hold clinics; Own realty and make improvements thereon; to grant diplomas.

Directors to be five members of the Universal Chiropractic Association and that Frederick B. C. Eilersficken, the founder, be a member during term of his natural life unless he should voluntarily resign.

Directors:

Eilersficken, F.B.C.
Volch, May S.
Eilersficken, May
Dick, Bethel
Hardison, W. W.

E.D. (Dr. of Naturopathy)
D.E. (Dr. of Naturopathy)
E.D. (Dr. of Naturopathy)
D.C. (Dr. of Chiropractic)
D.C. (Dr. of Chiropractic)

Capital Stock _____; Subscription _____.

(Now combined with the Clewell Chiropractic College.)

CLEWELL CHIROPRACTIC COLLEGE

Place of business, San Diego, Cal.
Incorporated: November 12th, 1913. #75110.

To teach Chiro, Drugless; establish clinics, maintain sanitarium; grant diplomas.

Incorporators :	Webster, John W.	San Diego
	Cudmore, Ernest E.	"
	Huston, Jas. D.	"
	White, Ruth	"
	Oakley, Nelson C.	"

Nelson C. Oakley shall be a life-long Trustee, or until he shall voluntarily resign.

Amount of Capital Stock: Nil. Amount subscribed: Nil.

N. C. Oakley, a graduate of the Ratledge system of Chiropractic, is the President and owner. No answer to the outline forwarded by your committee has been received. The "college" consists of four or five rooms in an office building, divided into several treatment rooms. One room of this suite is devoted to college work and contains two charts of anatomy hanging on the wall, an osteopathic chart and a few bones. No laboratory, laboratory facilities, models or any other apparatus whatsoever was observed. Teaching is conducted by lectures and quizzes. The school is apparently run as a side issue to a private practice. This institution inspected by Drs. Moleny and Vanderburgh.

NATUROPATHIC INSTITUTE AND SANITORIUM

Located at 1519 Grand Ave., Los Angeles, Cal.
Incorporated October 30th, 1905, #44319
President, Carl Schultz, N.D.

To buy, build or lease in Los Angeles or elsewhere; to teach Naturepathic-Therapeutics and give students after a course of instruction of Naturopathic-Therapeutics the degree of

N.D. (Dr. of Naturopathy)
D.B. (Master of Electricity) Full term
D.O. (Dr. of Osteopathy)
D.O. (Dr. of Chiropractic) Full term
O.S. (Orthopedic Surgeon) Full term

And such other degrees as the Faculty and directors of this Institute should grant to students.

Capital Stock \$150,000. @ \$10. per share; subscribed - \$10,000.

Directors:		Los Angeles	\$7000.	Shares
Schultz, Carl		"	2750.	275
Schultz, Ellen		"	100.	10
Greenwood, Harold		"	100.	10
Greenwood, Lavina		"	50.	5
Schroeder, G.W.		"		

In reply to the outline submitted, President Schulz stated that the school was being reorganized at the present time; that they now had no students and promised that a report would be forwarded to the Board in due time.

Inspected by Drs. Vanderburgh and Molony.

DAVIS COLLEGE OF NEUROPATHY AND OPHTHALMOLOGY
Los Angeles, Cal.

Incorporated - December 1st, 1911. #67324.

For the purpose of maintaining a college for teaching men and women the science of Neuropathy; to hold property; appoint professors; issue diplomas.

No Capital Stock; but following amounts are subscribed.

By Trustees:	Davis, Andrew P.	Los Angeles	\$10.00
	Davis, Callie M.	"	10.00
	Thomas, Wayne	"	10.00
	Sterns, Quinne T.	Baker, Ore.	10.00
	Hindman, Tollie M.	"	10.00

The College is located at 154 W. 23rd St., Los Angeles, Cal., being owned and conducted by A.P. Davis, M.D., N.D., Oph.D., D.C., D.O., a man of probably 70 years of age, who uses one room of his two-story residence for college purposes. He did not reply to the outline forwarded by your committee and refused to give any information. Dr. Davis stated that he did not give a course leading up to the preparation required for taking the drugless examination in this state, but was concerned with the post-graduate instruction of licensed men who wished to have knowledge of neuropathy. (This statement is somewhat contradictory to the literature published and circulated by Dr. Davis.)

The calendar issued by this institution contains the following information:

That a Fall and Winter "term" is conducted; each term sixteen weeks, during which time instruction is given from 8 to 10 A.M.,

five, days each week. Degrees are conferred upon post-graduate after attendance of one full term.

Degrees are conferred upon under-graduate after two full terms.

The equipment of this institution consists of one osteopathic chart, one chemical chart and four anatomical charts hanging on the walls. No skeleton, no models, no laboratory nor other teaching facilities or apparatus.

Inspected by Drs. Molony and Vanderburgh.

RATLEDGE SYSTEM OF CHIROPRACTIC SCHOOLS

Located in Los Angeles. The letterhead of the institution notes that schools are maintained in Topeka, Kansas, Oakland and Los Angeles, Cal. T. J. Ratledge, D. C., President; R. A. Ratledge, D.C. Secretary, and B. M. Ratledge, Treasurer. Reply to the outline submitted by your committee is attached hereto. The "college" is part of the private treatment rooms of Dr. Ratledge in the Hamburger Building in Los Angeles, Cal., and consist of one room containing several benches. The equipment consists of one skeleton and several anatomical charts, osteopathic charts. Instruction is by recitation and lectures. Dr. Ratledge stated that they do not give a course in preparation for a drugless examination and do not intend to do so; that according to their ideas the fundamental subjects and underlying medicine as appearing in the medical law of California are both unnecessary and uncalled for; that the essential thing in medicine is the treatment by a chiropractic method of spinal adjustment. During the period July, 1914, to date the institution matriculated two students.

Inspected by Drs. Molony and Vanderburgh.

LOS ANGELES COLLEGE OF CHIROPRACTIC

Incorporated October 18, 1911. #66620.

To teach chiropractic, anatomy, histology, gynecology, pathology, obstetrics, bacteriology, chemistry and toxicology; physiology; general diagnosis, hygiene and naturopathy and confer degree of Dr. of Chiropractic upon those completing the course.

Capital stock, \$10,000. @ par value of \$1.00; subscribed by following incorporators:

Cale, Chas. A.	\$996.00
Anderson, W. F.	1.00
Speicher, W. N.	1.00
Metcalf, W. E. E.	1.00
Reel, W. H.	1.00

Located on Hill Street, South and 9th, Los Angeles, and is owned by one, C. A. Cale, who is now a student in the second year of the

Los Angeles College of Osteopathic Physicians and Surgeons. Dr. Gale stated that he was formerly associated with A. W. Richardson in the conduct of chiropractic college in the Mason Opera Building, but that A. W. Richardson was now conducting the California Chiropractic College. At present this institution had neither college facilities nor equipment and no students. Your committee was informed that in the Fall, night sessions would open for the teaching of students in chiropractic methods,

Inspected by Dr. Molony.

CALIFORNIA CHIROPRACTIC COLLEGE

Incorporated July 31, 1913. #74106.

To establish college teaching chiropractic and allied subjects; to teach and educate students and by correspondence courses; (no mention of issuance of diploma); to own property and transact business in any part of the world.

Capital Stock, \$10,000.00 - par value \$1.00; Subscribed \$25.00

Trustees who have subscribed, as follows:

Richardson, A. W.	Los Angeles	\$5.00
Richardson, A. L.	"	5.00
Richardson, M. F.	"	5.00
Huffman, J. E.	"	5.00
Ward, J. H.	Pasadena	5.00

The college is Located at 2527 South Grand Avenue, Los Angeles.

A branch school was also conducted at 935 Haight Street, San Francisco. *(See note below).

This institution has submitted a reply to the committee outline. The college in Los Angeles consists of two rooms on the lower floor of a two-story residence, which are used for teaching purposes, one room being a lecture room, the other a clinic room. In both of these rooms are stored wax models of pathological conditions; a few anatomical models; a base of bones, containing normal and abnormal specimens; there is a small laboratory for urinalysis but no provision is made for other laboratory work and but meager laboratory instruction is possible in the small laboratory provided by the institution; one microscope is available for use of the students in elementary bacteriology. The total enrollment for the school year just closing is 83, comprising both day students and night students. The course is divided into two semesters each year and the teaching is mainly by lectures and clinical demonstrations. All teaching is practically conducted by A. W. Richardson, D.C., and May P. Jason, M.D., D.C., D.O., both of whom maintain offices in the building in conjunction with the College.

*NOTE: After the inspection, ~~at~~ the School in San Francisco was moved to quarters occupied by Geo. Gillispie, who conducts a bath establishment in the Alma Hotel, #335 Stockton St., S.F.
Inspected by Drs. Vanderburgh and Molony.

Your committee begs to report that we have examined the California College of Chiropractic and find that the faculty appears to be making an earnest effort to instruct students in the art of chiropractic.

The anatomy of the foot seems to be studied seriously and lectures are given on the function of the various structures of the foot. The blood supply and drainage of the structures are gone into quite thoroughly.

Chemistry to the extent of urinalysis is taught.

The college is sufficiently well equipped to do the work claimed to be done.

W. W. VANDERBURGH.

Insert motions on page 370 + 371.
(See motion adopting foregoing report, Page 370 and 371)

Moved by Dr. Tasker, seconded by Dr. Smith, that meeting adjourn at 6 P. M., June 15, 1915, to meet again at 10 o'clock A. M., June 16, 1915. Carried.

Meeting adjourned at 6 P. M., Tuesday, June 15, 1915.

W. B. Richardson
Secretary.

San Francisco, Cal. June 16, 1916.

Pursuant to adjournment the Board of Medical Examiners of the State of California met at 10:00 A. M. on the above date at the German House, cor. Turk & Polk Sts., San Francisco, Cal.

There were present Drs: H. E. Alderson, President, in the Chair, W. W. Vanderburgh, H. C. Loos, A. M. Smith, H. V. Brown; D. L. Tasker, C. B. Pinkham, W. R. Molony.

Meeting called to order by the President.

The oral examination of the following applicants was proceeded with:

- #932 Hall, Willis Henry:
Moved by Dr. Vanderburgh, seconded by Dr. Brown, that he be granted a certificate. Carried.
- #1008 Geiger, Jacob:
Moved by Dr. Tasker, seconded by Dr. Loos, that he be granted a certificate. Carried. 66
- #634 Hathaway, George Wirt:
Moved by Dr. Vanderburgh, seconded by Dr. Tasker, that he be denied a certificate. Carried. 66
- #988 Strout, Eugene Silas:
Moved by Dr. Vanderburgh, seconded by Dr. Tasker, that he be granted a certificate. Carried.
- #977 Beaver, Charles Vernon:
Moved by Dr. Vanderburgh, seconded by Dr. Tasker, that he be denied a certificate. Carried.
- #929 Gilohrist, Colin:
Moved by Dr. Vanderburgh, seconded by Dr. Tasker, that he be denied a certificate. Carried. 63
- #470 Wickland, Carl August:
Moved by Dr. Loos, seconded by Dr. Tasker, that he be denied a certificate. Carried.

With regard to the following application:

- #947 Hamman, George, Alvan: Letter received from the Secretary of the Kansas State Board stating that he took the regular written examination.

Moved by Dr. Loos, seconded by Dr. Molony, that the Board ratify the recommendations of the Credentials Committee and grant reciprocity certificates to those applicants recommended by the Committee except in the case of such applications as were subject to special action. Carried.
